

YOUSSEF YASSER MOHAMMED

Frontend Developer (React.js)

Cairo, Egypt | 01069624600 | youssefyasser549@gmail.com | linkedin.com/in/youssef-yasser97 | github.com/YoussefYaser

PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of experience specializing in React.js. Proficient in JavaScript (ES6+), HTML5, and CSS3, with hands-on experience building responsive, user-friendly web interfaces for national government agencies. Skilled in Redux Toolkit for state management, React Query / RTK Query for data fetching, and Tailwind CSS for styling. Experienced delivering GIS and compliance web applications at enterprise scale. Committed to writing clean, maintainable code.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Redux Toolkit, RTK Query, TanStack Query (React Query), jQuery

Styling: Tailwind CSS, Bootstrap, Material-UI (MUI), Shadcn/ui

Forms & Validation: Formik, Yup

GIS & Mapping: Leaflet.js

Version Control: Git, GitHub

Other: PostgreSQL, IndexedDB, REST APIs, Offline/Online Data Syncing, i18Next, Swiper.js, Context API

WORK EXPERIENCE

Frontend Developer

Nov 2024 – Present

EDGE Pro for Information Systems — Full Time (Egypt)

- Develop and maintain web-based GIS applications for national government clients, including the Central Agency for Public Mobilization and Statistics and the State Properties General Authority (SPGA) of Saudi Arabia.
- Build interactive spatial data management interfaces using React.js, Leaflet.js, and Tailwind CSS with offline/online syncing via IndexedDB.
- Collaborate with .NET and PostgreSQL backend teams to integrate REST APIs and ensure smooth data flow.
- Deliver solutions for population census operations, geospatial mapping, compliance monitoring, and decision-support dashboards.

Frontend Developer Intern

Aug 2024 – Oct 2024

Web Masters — Egypt

- Assisted in designing and developing responsive websites for clients in web hosting, digital marketing, and business solutions.
- Implemented UI components using React.js, HTML5, CSS3, and Bootstrap.
- Gained practical experience with client-facing web development workflows and project delivery cycles.

KEY PROJECTS

Population Census and Mapping System — Central Agency for Public Mobilization and Statistics

Technologies: React.js, Leaflet.js, .NET, PostgreSQL, Tailwind CSS, IndexedDB

- Developed a national GIS platform to support population census operations and geospatial mapping for a major Egyptian government agency.
- Implemented offline/online data syncing using IndexedDB, enabling field operations without continuous internet access.
- Streamlined spatial data management and enhanced decision-making through advanced map editing and filtering capabilities.

Real Estate Violations Monitoring and Complaints Management System — State Properties General Authority (SPGA), Saudi Arabia

Technologies: React.js, Leaflet.js, .NET, PostgreSQL, Tailwind CSS

- Developed a centralized web platform for submitting, tracking, and resolving real estate complaints and violations on behalf of a Saudi government authority.
- Integrated GIS-based mapping to visualize violation locations and property boundaries across Saudi Arabia, enabling spatial analysis and compliance monitoring.
- Built analytics dashboards to support data-driven decision-making for regulatory and compliance teams.
- Implemented complaint lifecycle management features including status tracking, assignment workflows, and resolution reporting.
- Delivered a scalable, role-based system designed to handle high volumes of government property records and citizen complaints.

Spatial Change Monitoring Dashboard — Military Survey Department

Technologies: React.js, Leaflet.js, .NET, PostgreSQL, Tailwind CSS

- Designed and developed a web-based GIS application to visualize and manage geospatial points across Egypt.
- Built interactive features including filtering by governorate, statistical dashboards, and swipe-based comparison of historical and recent satellite imagery.
- Implemented synchronized table-to-map interaction for enhanced spatial data exploration.
- Supported a national system that detected over 1.7 million spatial changes (2018–2024) enabled daily monitoring of land and Nile River violations

MovieCamp — Entertainment Platform | [Live Demo](#) | [GitHub Repository](#)

Technologies: React.js, Redux Toolkit, RTK Query, Tailwind CSS, Swiper.js

- Built a full-featured entertainment platform for browsing movies, TV series, and celebrity biographies.
- Integrated external media APIs using RTK Query and managed global state with Redux Toolkit.

FreshCart — E-Commerce Platform | [Live Demo](#) | [GitHub Repository](#)

Technologies: React.js, TanStack Query, Redux Toolkit, Context API, Bootstrap

- Developed an e-commerce platform with enhanced UX for product browsing and purchasing.
- Used TanStack Query for efficient data fetching and Redux Toolkit for cart and user state management.

EDUCATION

Bachelor of Engineering — Computer Science | [Bachelor Certificate](#)

Sep 2018 – Jul 2023

Suez Canal University, Faculty of Engineering

- GPA: 3.25 — Very Good
- Graduation Project: Excellent (A) — EEG Brain-Controlled Wheelchair; implemented a Machine Learning model to classify EEG brain signals for individuals with movement disabilities, connected to an embedded control circuit via Bluetooth

COURSES & TRAINING

Frontend Development Course | [Route Academy Certificate](#)

Mar 2024 – Sep 2024

Route Academy — React.js, JavaScript ES6+, TypeScript, Redux Toolkit, and modern CSS frameworks

SOFT SKILLS

Problem-Solving • Attention to Detail • Team Collaboration • Self-Learning • Adaptability • Communication • Willingness to Learn
